DETAILED ACTION

Receipt is acknowledged of Declaration filed on October 22, 2002 and Information Disclosure Statement filed on October 28, 2002. A filed June 13, 2002.

Status of the Claims

Claims 1-47 are pending in this application.

Response to Declaration

Applicants' 1.132 declaration filed October 22, 2002, in paper No.28 have been considered and are deemed insufficient to overcome the rejection of claims 1-47.

Claim 1-47 directed to the same invention as that of claim 5 of commonly assigned . The issue of priority under 35 U.S.C. 102(g) and possibly 35 U.S.C. 102(f) of this single invention must be resolved.

Since the U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP § 2302), the assignee is required to state which entity is the prior inventor of the conflicting subject matter. A terminal disclaimer has no effect in this situation since the basis for refusing more than one patent is priority of invention under 35 U.S.C. 102(f) or (g) and not an extension of monopoly.

Failure to comply with this requirement will result in a holding of abandonment of this application.

The rejection of claim 1-47, under 35 U.S.C. 102 (f), in Paper No. 25 is maintained for the following reasons. 1.132 declaration can operate only when it is in reference to unclaimed subject matter. In the instant case, the claimed subject matter has been in possession and

enforcing identical scope, in claim 5 of US '717. The claims are identical in scope and involve different inventors.

Response to Arguments

Applicants' arguments filed October 22, 2002 have been fully considered and are deemed insufficient to overcome the double patenting rejection of claims 1-47 for the reasons set forth in Paper No. 25.

The double patenting rejection of claims 1-47, set forth in Paper No. 25, is maintained for the following reasons. US '347 evidenced the genus of tocol has been claimed and US '717 evidenced that the species of α -tocopherol has been claimed in claim 5. The combined claim of US '347 and US '717 render the instant claim obvious wherein the detailed limitation of US '717 render claim 5 identical to the instant claims. The dependant claim 5 is unclear, were all the limitations of the base claim is identical to the instant claim, then it statutory double patenting.

Therefore **THIS ACTION IS MADE FINAL**. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136 (a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
